---

## PROFESSIONAL SUMMARY

Full Stack Developer with expertise in modern web technologies including .NET and C#. Experienced in building scalable web applications with strong focus on performance, security, and user experience. Hands-on expertise in full-stack web development using MEAN, MERN and Laravel ecosystem.

---

## TECHNICAL SKILLS

- **Frontend:** HTML, CSS, Bootstrap, JavaScript, React, AngularJS
  - **Backend:** C# (.NET), Java, PHP, Python, NodeJS
  - **Database :** MySQL, PostgreSQL, MSSQL, Oracle, NoSQL (MongoDB)
  - **Frameworks:** .NET Core, Django, FastAPI, SpringBoot, ExpressJS
  - **Tools:** Git, VS Code, PyCharm
  - **Concepts:** Authentication, Secure Coding, OWASP Top 10
- 

## CERTIFICATIONS

- Red Hat Certified System Administrator (RHCSA)
  - Certified Ethical Hacker (CEH – training)
  - IT Fundamentals – CompTIA (training)
  - CSCU – EC-Council
  - Cyber Security Expert - TechDefence
-

## EXPERIENCE

### *Full Stack Web Developer / Security Associate – Xipra Technology*

( Duration: 2023 - 2025)

- Developed enterprise web architectures while strictly adhering to **Secure Coding Practices** to minimize code-level vulnerabilities.
- Collaborated on server Administration tasks, ensuring system patches were deployed and tracking system audit trails for anomalies.
- Assisted senior infrastructure teams in troubleshooting network backend logic and configuring basic defensive controls.

### *Freelance Cyber Security & Secure Web Specialist*

( Duration: April-2025 – Present )

- Conducted continuous Vulnerability Assessment & Log Auditing for Small-to-Medium enterprise infrastructure to identify and patch system flaws.
- Analyzed application, Web Servers (Apache, Nginx) and Database logs to investigate Brute-Force Indicators, SQL Injections and Unauthorized Access Anomalies.
- Implemented server-side security hardening, including setting up automated firewall blocks, enforcing SSH Keys, Configuring Secure Session Management and Password Hashing Primitives.
- Authored detailed incident reports and remediation playbooks for clients after detecting active unauthorized entry attempts.

---

## PROJECTS

### *Secure Web Application & Role Based Access Control (RBAC) System*

- Engineered a high-security web architecture featuring multi-tiered Role-Based Access Control (RBAC) mechanisms.
- Integrated defense-in-depth security patterns including encrypting password hashing , cryptographically secure session tracking and rigorous input validation rules to mitigate common OWASP Top 10 exposures.

---

## **EDUCATION**

B.Tech in Computer Science Engineering - 2022 | Adarsh Management Institute, MGU
